You are given 10 minutes to present the story on camera for video recording

Marks will be considered according to: Clarity, Expression, Fluency and grammatical features

THE ACCIDENT

We received reports that accidents were on the rise in the country and the general public has been cautioned against reckless driving by motorists.

In December 2022, the country registered at least 280 fatalities and 166 minor accidents especially during the festive season. The traffic control unit also attributed this to over speeding, distractions and poor roads in the country. Some drivers were also reported to not have been in possession of their driving permits which meant they either were inexperienced drivers or minors.

Further on, at least 16 people are said to have died and several others injured after a bus rammed into a stationary trailer at a trading center along Kampala-Gulu highway on Friday morning.

Uganda police force said in a statement that the passenger bus traveling from Kampala to Gulu crashed into the trailer around midnight.

Local media reports indicate that 12 people died on spot while 4 others died after reaching the hospital. The police said the dead bodies were conveyed to Anyeke Health 3 pending post mortem. Cause of the accident is yet to be established but preliminary findings indicate wrong parking by the trailer driver with no warning signs. "It is a very unfortunate incident, we call for calmness from members of the public, our condolences to the bereaved families" the police said.

4. Using your own imagination, compose a story based on the title **"Effects of language deprivation"** (20 marks)

Good Luck
