

UGANDA MARTYS UNIVERSITY

FACULTY OF AGRICULTURE

Bachelor of Science in General Agriculture Year 2 (DLP)

Module: AG 06 Sustainable Animal Husbandry
Supplementary and Special exams September 2015

Instructions:

Read and understand the questions before answering.

Answer any Four (4) questions

All questions carry equal marks

Start each answer on a separate answer sheet.

1. Describe the operations which a farmer should carry out in a chicken brooder in order to obtain optimum results.
2. Discuss the challenges facing beekeeping farmers in your country, and give suggestions how to overcome them.
3. Dairy farmers in your area have complained of frequent rejection of their milk at the collecting centre. What do you think might be the causes for this? Give advice on how they can improve the quality of their milk.
4. Describe strategies how livestock production on range lands can be improved.
5. a) Describe the process and importance of milk let down in a cow
b) What advice would you give a cattle dairy farmer to control mastitis on his/her farm?
6. Farmers in your area would like to start commercial fish pond production. Describe the advice you would give them to establish a successful enterprise.
