

Uganda Martyrs University

Faculty of Agriculture

B. Agriculture I, Semester II Final Assessment: 2013 – 2014
Code: PPM 1201 Course Unit: Project Planning and Management

Time: 10:00 am – 1:00 pm

Date: 9th May, 2014

Instructions:

Section A is compulsory

Attempt any three (3) questions in section B

Do not write anything on a question paper

Time: 3 hours

Section A

1. Distinguish between a project and a program, giving examples of each in your community.

Describe various characteristics of any project you are familiar with.

Section B

2. Mr. Omar was appointed a project coordinator in Manafwa region on poverty eradication amongst farmers. Why do you think it was important for him to involve community members in all project planning and management stages?
3. Describe the major components of a project management cycle. At what phase do you think project monitoring and evaluation should be conducted; give reasons to support your answer.
4. By use of valid examples, give the undermining features of community participation in Project planning and management.
5. If you were a project manager in your community, what would be the golden rules that you would advocate for successful management of your project?
6. Briefly explain the difference between a concept note and a full project proposal. Explain the major sections of a project proposal.
7. What in your view are the major stages of a project lifecycle?
8. What areas do you think community and individual members can not handle and they would require intervention of the Government?
