Instructions:

- *Attempt 4 questions*
 - *Do not write anything on a question paper*
 - *Time: Three hours*
 - *Read and understand the question before answering*
 - *Start each question on the new page*
-

1. If you were able to play a role in formulating the agriculture policy in your country, what changes would you make to ensure that all the farmers were health, educated and reliable physical infrastructure?
2. Outline a development paradigm that you think could be used to guide development policies in Uganda today.
3. Give your views on the Plan for the Modernization of Agriculture in the light of recent people centred development thinking.
4. "If things remain the way they are in Uganda, Agriculture will never address the issue of development". Discuss this issue in the light of modernization and sustainability.
5. "If women were more involved in the planning processes for policies that have to do with agriculture in Uganda, there would have been more development in the rural areas of Uganda". Discuss this statement giving concrete example.
6. One of the agriculture policies in Uganda was to promote domestic regional and international trade in agricultural products. In order to sustain improvement in agriculture, farmers need to be assured of market outlets for their produce. Explain with relevant examples what the government has done in order to achieve this objective.

7. Explain the role played by the Ministry of Agriculture Animal Industry and Fisheries in policy formulation and implementation.
8. NAADS is one of the bodies that were formed by the government to help the MAAIF implement the agricultural policy, Discuss the guiding principles of the NAADS.
