Date: Tuesday 17<sup>th</sup> January 2023

Time: 2:00pm-5:00pm

---

**Instructions**

- Read and understand each question before you attempt it.
  - Select two questions with **35marks** and one question with **30marks**.
  - For questions with parts a. and b, answer all the parts.
  - Select only 3 (three) questions of your choice
- 

1. a) Analyse the Thomas Malthus statement, "The earth has reached its carrying capacity," referring to the up-surging world population (**20 marks**)  
b) What can countries in the developing world do with population growth? (**15marks**)
2. Explain ways in which you can convince your community leaders on the protection of the environment to reduce the environmental burdens experienced there. (**30 marks**)
3. "The history of sustainable development has an impact on the implementation of sustainable development goals in most developing countries." Assess the statement (**35 marks**).
4. "Your country can use the principles of sustainable development in order to transform rural areas." With relevant examples, elaborate on the sustainable development principles the leaders of your country can use in the transformation of rural communities. (**30 marks**)
5. a) With relevant examples explain the sustainable development challenges in your country. (**20marks**)  
b) How can these challenges be averted in your country in order to achieve sustainable development goals by 2030? (**15marks**)
6. Using the ethical process of inquiry, use the Theories of the Environment to explain ways in which you can transform your district or state. (**30 marks**)
