1. Please read the instructions carefully before answering the questions.
2. Read each question carefully and write legibly.
3. **Attempt only three numbers**
4. Do not write anything on this question paper.

1. With examples, demonstrate how the study of IK can help to bridge a gap between the schooled and the less or unschooled.
2. IK has been variably defined by different people. Basing on the knowledge acquired, how do you define IK and Why? Give some examples.
3. Describe the set up of the forest school at PROMETRA Buyijja.
4. Indigenous knowledge systems have enabled the various communities in those countries to **live in harmony with their environments** for generations. *With examples explain how this is possible.*
5. Healing is one of the most important aspects of IK. How is it done and how far does it differ from the Western approach to disease?
